## DCC Counseling Resources

We are pleased to provide a list of therapists who are qualified to treat and support individuals, children, adolescents, couples, and families. Each therapist is uniquely equipped and trained to work with specific concerns. While we provide this list, DCC makes no guarantee regarding the effectiveness of these counselors for any client. However, we do believe in the value of therapy and the ability of trained therapists to support those in need. All these therapists share a faith perspective and are comfortable working with anxiety, depression, grief/loss, and life transitions. Their specialties are listed as well. For additional support or referral help, please email [amanda@denverchurch.org](mailto:amanda@denverchurch.org).
